Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 5-6, 8-9, 10, and 13-16, drawn to piezoelectric elements and devices, classified in class 310, subclass 318.
 - II. Claims 2-3, 11, 17-19, 21, 23, 25, 27 and 29 , drawn to piezoelectric elements and devices, classified in class 310, subclass 318.
 - III. Claims 4, 7, 12, 20, 22, 24, 26, 28, and 30, drawn to piezoelectric elements and devices, classified in class 310, subclass 318.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because there is no detection of a linear differential value of the step up ration of the piezoelectric transformer with respect to the frequency .
3. Inventions II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because there is no detection of a linear differential value of the step up ration of the piezoelectric transformer with respect to the phase difference.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II or III, restriction for examination purposes as indicated is proper.

Art Unit: 2834

5. A telephone call was made to, Steven R. Wegman on 10/28/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
